

"PLOTTERS" STRIKE AGAIN

DuPont Powder Plants Are Again Victimized by "Accident"

NO CASUALTIES IN THE LATEST

In Two Days Hagley Yards Has Fifth Explosion

Wilmington, Del., Jan. 13.—The fifth explosion in two days at the DuPont Powder plants in this vicinity occurred late Tuesday night in the Hagley yards of the company on the outskirts of the city. A small wheelmill blew up, but beyond destroying the building and about a ton of powder no damage was done. There were no casualties.

The fourth explosion occurred late Tuesday afternoon at the smokeless powder plant at Carney's Point, N. J., across the Delaware river from Wilmington. Thirteen tons of powder went off without injuring anyone.

Last Sunday night there was a blast at Carney's Point which killed three men and on Monday there was an explosion at the Hagley yards and another at Carney's Point.

"The large number of explosions at this time," said a representative of the company, "is undoubtedly due to the fact that the company's force is one hundred times as great as when the European war broke out and there is much more work to be done. It is also a fact that nearly all of the orders are hurried, and it is also true that some of the operatives have not been at the business long enough to acquire the experience of many of the older men."

EVERYBODY NEEDS PURE, RICH BLOOD

Pure blood enables the stomach, liver and other digestive organs to do their work properly. Without it they are sluggish, there is loss of appetite, sometimes faintness, a deranged state of the intestines, and, in general, all the symptoms of dyspepsia.

Pure blood is required by every organ of the body for the proper performance of its functions. Hood's Sarsaparilla makes pure blood, and this is why it is so successful in the treatment of so many diseases and ailments. It acts directly on the blood, ridding it of scrofulous and other humors. It is a peculiar combination of blood-purifying, nerve-toning, strengthening substances. Get it to-day.—Adv.

KAISER'S ILLNESS CALLS HIS SON TO ACT AS REGENT

Crown Prince Said to Have Been Summoned to Berlin from Front—No Authentic News of Ruler's Condition.

Rome, Jan. 13.—Unconfirmed advice from Swiss sources yesterday reported that the German crown prince has been recalled to Berlin, probably to assume the regency on account of the emperor's illness. It was stated that the reports reached Switzerland directly from Berlin.

The duke of Abruzzi, brother-in-law of Prince von Buelow, former German chancellor, who has been living in Switzerland for several months, is quoted here as saying that the prince has been summoned suddenly to Berlin on account of the illness of the emperor.

[Rome dispatches a few days ago said it was learned there on good authority that the emperor's illness was not serious and that he would be out within a few days. Within the last 24 hours, however, rumors that the emperor's condition was serious have been revived. News agencies with correspondents in Berlin have made unsuccessful attempts to secure an authentic statement regarding the emperor's condition.]

London, Jan. 13.—The impossibility of learning the emperor's real condition is fostering rumors that he is dying or dead. The Daily Mail ridicules these rumors, likening them to the rumors that Cossacks were in England on their way to the western front early in the war.

Stories, of which there is no confirmation, of German anxiety and the seriousness of the emperor's condition, continue to be printed in Holland, Switzerland and Scandinavia. The German papers do not refer to his illness.

Color is given to the reports that the emperor is near death by the publication of extravagant eulogies of the achievements of the crown prince in the German press.

FIGHT POSTAL TALKING STOP WATCH OF GARY

Bill to Prohibit Its Use Is Introduced in Congress

POLICY TOWARD CLERKS CRITICISED

Inspectors "Trail Aged Letter Carriers"—Efficiency Ruining Service

Washington, Jan. 13.—A bill to prohibit the use of the stop-watch or any time measuring device or system in the postal service has been introduced by Representative Van Dyke of Minnesota, member of the House labor committee, formerly an official of the National Federation of Postoffice Clerks. The bill has been put in order to meet the alleged inadequate increase in the clerical force urged by the department this year.

Drastic criticism of the postmaster general's policy toward the postal clerks is voiced by Thomas F. Flaherty, legislative representative of the clerks, in a statement supporting the Van Dyke bill.

"At no time in the history of the postal service have complaints been so general and so emphatic against the present departmental policy of driving the men," Flaherty says. "Inspectors trail aged letter carriers around their routes to see if additional work can be added to the already harassed employee. Time tests are taken of the fastest distributor and he sets the standard for all the clerks. Complaints have been made that the hidden overhead galleries, the secret hiding places of the inspectors, are points of vantage from which the movements of men are watched and timed. In a misguided effort to get efficiency the department is breaking it down. We want Congress to prohibit absolutely the use of a stop-watch and restore to the employees a normal system of supervision of their work."

Secretary Lansing had an engagement to appear before the House foreign affairs committee yesterday to urge an appropriation of \$40,000 for continuing the joint high commission so as to cooperate in carrying out the plans of the recent Pan-American financial congress in South American matters.

STRIKERS VOTE TO QUIT AT YOUNGSTOWN

The decision was to be ratified at a conference between company officials and the men later in the day.

TO URGE FOREST PLAN.

Forestry Experts Before Agricultural Committee To-morrow.

Washington, Jan. 13.—More than a dozen national and state forestry and conservation organizations expect to be represented at the hearing on Friday morning before the committee on agriculture on the bill to appropriate \$10,000,000 to continue the purchase of land in New England and the southern Appalachian region in connection with the conservation scheme, and an effort will be made to have the appropriation carried as an item in the agricultural appropriation bill. Among those who expect to be present at the hearing is Dr. Henry S. Drinker, who will appear in behalf of the American Forestry association and who will present the arguments prepared by a committee composed of Dr. Drinker, Mr. Ridsdale and Philip W. Ayers of Boston, forester for the Society for the Protection of New Hampshire Forests. It has been pointed out by the proponents of the measure that a failure to appropriate the sum asked for would result in greater cost to the government in the long run.

His Name at Least Stirs Political Discussion Among the Republicans

HIS RECORD FOR HIGH WAGES

A Combination of Old-Line and Progressive Party Men

New York, Jan. 13.—Wall street and territory adjacent heard yesterday a report that influential members of both the Republican and Progressive parties had under consideration the name of Elbert H. Gary, now chairman of the United States Steel corporation, as a coalition candidate for president of the United States. Then from Chicago confirmation came that Progressive leaders were talking of Gary.

The recent Gary dinner which at the time was supposed chiefly to concern Theodore Roosevelt, was recalled, and some surmise was heard as to whether Judge Gary's dinner might not chiefly have concerned Mr. Gary himself; also previous Gary dinners, the outcome of which was almost invariably of importance to industry in the United States. By nightfall Judge Gary and his possible candidacy were being discussed from many angles.

Many Republicans who are opposed to Colonel Roosevelt, it has been suggested, would favor Judge Gary as their candidate, and other Progressives, while favoring the colonel, might be in a receptive mood for a man who probably would support Roosevelt's favorite measures and at the same time uphold old-line Republican policies.

Judge Gary declined to comment on the situation in any way. Inquiry of individuals Tuesday who attended the recent Gary dinner at which Colonel Roosevelt was a guest, brought reiterations of former statements that no political significance was to be attached to the event.

The political leaders who are indicated as favoring Judge Gary are counting much on his record as the head of a great corporation who devoted personal energy toward the improvement of working conditions among his men. Since the steel corporation took up organized welfare work about seven years ago, more than \$6,000,000 has been spent in the installation of devices to prevent injury and in appliances to enhance the comfort of steel workers and their families. Judge Gary has held that wage scales should be ample, and that in poor times, as well as in good, these schedules should be maintained. Certain politicians believe that Judge Gary's attitude toward the matter of wages be a strong factor in promoting his candidacy before the people, especially in view of the steel corporation's decision last week to advance wages 10 per cent on Feb. 1.

BORAH ATTACKS WILSON POLICY.

Starts Hot Debate on Mexico in the Senate.

Washington, D. C., Jan. 13.—The hottest debate of the session took place in Congress yesterday over the slaughter of sixteen Americans in Mexico. The administration policy was fiercely attacked in the Senate.

Borah demanded that unless Carranza could give assurance of his power to protect American interests this nation should intervene.

Senator Gallinger, said Borah—Gallinger just had finished a demand for decisive action by this country—"speaks for my party. I speak for myself."

"Our government should take steps at once to stem such outrages," said Senator Gallinger.

President Wilson's Mexican policy was denounced by Senator Borah as a "compromising, sidestepping procrastinating, un-American course; which had failed to protect American lives or honor."

"I understand the victims Monday had passports," said Borah. "A great consolation it must have been to them as they were stripped, stood up against a wall and shot."

"Other outrages have been smothered and suppressed. Thank God this one could not be."

"We have talked much about Belgium and the violation of the rights of neutrals. In God's name has the time come when we will not protect our citizens?"

"I know not what others would do, but unless Carranza can give assurance at once of his ability to protect us, I would intervene."

Chairman Stone of the foreign relations committee rebuked Borah for making the question political.

"Party politics has no place in consideration of this incident," said Stone, referring to what he termed the "sad affair, the horrible crime of irresponsible landings."

They should be hunted down and punished, he said. "But," he declared, "such outrages by masked bandits often occur in the United States."

"It's only within the last two months," Stone continued, "that anything really approaching a settled government in Mexico has been really established."

Defending President Wilson Senator Stone declared there was no proof yet that Carranza would not care for the situation. He predicted he would use all his power to that end.

"As to his power," said Stone, "even the governors of Pennsylvania and Colorado might have had offenders behind bars in twelve hours."

"I undertake to say that the president of the United States will do everything possible," said Stone. "I want to leave this matter to him, feeling sure he will give this nation full satisfaction."

A Mistake Somewhere. A helpful friend recently requested us to write a funny piece about a game we used to play in boyhood's glad days, called "Hiding in the Barn." He alleged that part of the gang hid and the rest searched for them, and when they were found all hands jumped and yelled most gleefully. This, he tried to remind us, was very, very funny. Either our memory is failing or we have lost our sense of humor, for as we recollect it, our father did the hiding and we jumped and yelled. And it does not seem amusing to us, even yet.—Kansas City Star.
